Concrete by SADLERSTONE /

With an unwavering passion and commitment to concrete, Sadlerstone is at the forefront of the transition of concrete from its industrial roots to an elegant and functional finish for the architectural and design community. With more than 25 years experience, Sadlerstone continues to be recognised for its innovate, custom-manufactured, premium-quality concrete architectural finishes.

the look / chic / "a natural and earthy warmth that is contemporary, pleasantly tactile and feels good underfoot." Contemporary colours, tonal variation, varying tile shapes, depth, warmth, subtle translucence, natural low sheen.

Eco Couture

As an innovative Australian manufacturer, Sadlerstone recognises the need to create a range of products that are not only cutting edge, unique and functional, but also embody the philosophy of our global environmental goals.

Process

Sadlerstone aspires to the Quality Assurance principles of ISO 9001 and the Environmental Management principles of ISO14001 and has attempted to provide a closed-loop manufacturing process wherein we are committed to continual improvement and the prevention of pollution.

Material

Composed of carefully-selected materials, Sadlerstone is naturally cured at ambient temperatures to provide a durable, low maintenance material.

Eco-friendly

Low energy, recyclable and natural, Sadlerstone has been recognised by Ecospecifier.org, Australia's leading organisation for architectural product testing and evaluation for its environmental flooring products.

Durability and Low Maintenance

Two-to-three times the normal structural grade of concrete, Sadlerstone is engineered to a level that provides exceptional strength and wear capabilities. All Sadlerstone floors, countertops and accessories continue to gain strength over time.

Products /

To maintain simplicity and fluidity in design, Sadlerstone offers a contemporary range of floor and wall tiles, pavers, countertops, and accessories to suit any application. All products are available in Sadlerstone's full range of colours and surface finishes to provide designers with endless inspiration to create a dynamic visual experience.

the uses / unique / "The ability to maintain character from inside to outside." Smooth textured and terrazzo finishes, used inside and out, accessories, cladding, custom made sizes and colours, eco friendly, installation ease.

Tiles & Paver Tiles

A unique, stylish appearance with unequalled presentation using our eco-engineered technology platform to produce a hard, yet tactile surface, that entices users with a clear, flush floor that maintains an uninterrupted plane, providing a sense of beyond. Available through custom manufacture in the full Sadlerstone colour palette, range of finishes and array of fully-rectified size formats up to 1200x1200mm (48x48").

ecoSTONETOPS

Sadlerstone offers countertops to complete the design aesthetic. Sadlerstone countertops come in a full range of colours in sizes up to 2.4m x 1.2m. Ideal for countertops, vanities and backsplashes.

Polished Concrete Overlays

An engineered system; thin (10mm), monolithic, large panel sizes, fully bonded, super strength (90MPa+) system that can be laid like other flooring choices at the end of the project. It is architectural rather than just decorative, predictable and reliable.

Finishes

As all products are produced in smooth, textured, terrazzo, and new FLEKK finishes, it is possible to produce a seamless transition between inside and outside, with just a change in surface texture.

the precision / engineered / "State-of-the-art equipment, consistent quality, guaranteed." Dimensional accuracy, durable, strong and colourfast, meeting industry standards.

Colour Palette

Earthy and muted, Sadlerstone's integrally coloured palette and natural aggregate selection allows for a multitude of design possibilities. A light to dark colour spectrum with cool to warm tones.

Surface Translucence

The absorption and reflection of light in a Sadlerstone Surface is unique. Natural and artificial light enhance the silky, tactile, minimalist, reflective surface in a different, but exceptional way.

Tonal Variation

Like natural stone, each piece of Sadlerstone is unique. Subtle tonal variations add movement and richness to the surface offering new life to the space.

Ideal for Outdoor

Sadlerstone's textured and sawn finishes create an urban aesthetic when used for interiors and are perfectly suitable for external applications. They are non-slip, colourfast, UV stable, versatile, twice the strength of traditional concrete pavers with unrivaled precision.

World of Projects

Designers around the world have recognised the one-of-a-kind look Sadlerstone provides. Our impressive list of clients include: Chanel, Armani, Hugo Boss, TUMI, Dallas Cowboys, Kate Spade, Calvin Klein, David Jones and many more.

Creativity & Innovation

Sadlerstone invites architects, industry professional and designers to create their vision in concrete. Chic, Unique and Engineered, Sadlerstone complementary concrete products work together and turn ideas into reality.
